Contents of Volume 179, No. 1

FULL PAPERS

Proteins

Calmodulin and myosin light-chain kinase of rabbit fast skeletal muscle	A. C. NAIRN & S. V. PERRY	89–97
Characterization of lipid–protein interactions in acetylcholinesterase lipoprotein extracted from bovine erythrocytes	G. BEAUREGARD & B. D. ROUFOGALIS	109–117
4-Pyridylmethyl, a thiol-protecting group suitable for the partial synthesis of proteins	U. TH. RÜEGG, D. JARVIS & J. RUDINGER	119–126
2-Sulphobenzyl, a new solubilizing and reversible protecting group for cysteine in proteins. Its scope and limitations	U. TH. RÜEGG, D. JARVIS & J. RUDINGER	127–134
Cross-linking experiments with the adenosine triphosphatase of sarcoplasmic reticulum	G. M. HEBDON, L. W. CUNNINGHAM & N. M. GREEN	135–139
The semisynthesis of fragments corresponding to residues 66–104 of horse heart cytochrome *c*	C. J. A. WALLACE & R. E. OFFORD	169–182
Hydrolysis of *p-NN'*-phenylenebismaleimide and its adducts with cysteine. Implications from cross-linking of proteins	P. KNIGHT	191–197
Effects of modification of the tyrosine residues of bacteriorhodopsin with tetranitromethane	M. CAMPOS-CAVIERES, T. A. MOORE & R. N. PERHAM	233–238

Nucleic Acids

Interferon effect on ribosomal ribonucleic acid related to chromosome 21 ploidy	L. E. MAROUN	221–225

Lipids

Neutral glycosphingolipids and gangliosides of human lung and lung tumours	R. NARASIMHAN & R. K. MURRAY	199–211

Carbohydrates

Sequential degradation of a chondroitin sulphate trisaccharide by lysosomal enzymes from embryonic-chick epiphysial cartilage	B. INGMAR & Å. WASTESON	7–13
Immunochemical analysis of cartilage proteoglycans. Antigenic determinants of substructures	J. WIESLANDER & D. HEINEGÅRD	35–45
Identification of *N*-sulphated disaccharide units in heparin-like polysaccharides	I. JACOBSSON, M. HÖÖK, I. PETTERSSON, U. LINDAHL, O. LARM, E. WIRÉN & K. VON FIGURA	77–87

Small Molecules

Mass-spectral identification and purification of phycoerythrobilin and phycocyanobilin	E. FU, L. FRIEDMAN & H. W. SIEGELMAN	1–6
Biosynthesis of a 7-α-methoxycephalosporin. Incorporation of molecular oxygen	J. O'SULLIVAN, R. T. APLIN, C. M. STEVENS & E. P. ABRAHAM	47–52

Reactivities of hydroxylamine and sodium bisulphite with carbonyl-containing haems with the prosthetic groups of the erythrocyte green haemoproteins	L. J. DEFILIPPI, L. S. TOLER & D. E. HULTQUIST	151–160

Enzymology

Kinetic behaviour of acid phosphatase–albumin co-polymers in homogeneous phase and under gel-immobilized conditions	M. CANTARELLA, M.-H. REMY, V. SCARDI, F. ALFANI, G. IORIO & G. GRECO, JR.	15–20
Rabbit erythrocyte purine nucleoside phosphorylase. Initial-velocity studies	B. SAVAGE & N. SPENCER	21–27
Rabbit erythrocyte purine nucleoside phosphorylase. Differential-inactivation studies	B. SAVAGE & N. SPENCER	29–34
Differences in the degradation of native collagen by two microbial collagenases	A. LECROISEY & B. KEIL	53–58
Phospholipid-dependence of oestrone UDP-glucuronyltransferase and *p*-nitrophenol UDP-glucuronyltransferase	R. H. TUKEY, R. E. BILLINGS, A. P. AUTOR & T. R. TEPHLY	59–65
The inhibition of staphylococcal β-lactamase by clavulanic acid	C. READING & P. HEPBURN	67–76
Mutant analysis of glyceraldehyde 3-phosphate dehydrogenase in *Escherichia coli*	J. D. HILLMAN	99–107
A 1,4-β-glucan glucanohydrolase from the cellulolytic fungus *Trichoderma viride* QM 9414. Purification, characterization and preparation of an immunoadsorbent for the enzyme	U. HÅKANSSON, L. G. FÄGERSTAM, L. G. PETTERSSON & L. ANDERSSON	141–149
The effect of restricted hydration on the rate of reaction of glucose 6-phosphate dehydrogenase, phosphoglucose isomerase, hexokinase and fumarase. Relevance for metabolism in xeric (near-dry) conditions	E. STEVENS & L. STEVENS	161–167
Action of human pepsins 1, 2, 3 and 5 on the oxidized B-chain of insulin	N. B. ROBERTS & W. H. TAYLOR	183–190
Changes in intermediate haemoglobins during methaemoglobin reduction by NADPH–flavin reductase	A. TOMODA, T. YUBISUI, A. TSUJI & Y. YONEYAMA	227–231
The catalytic activity of pig pepsin C towards small synthetic substrates	C. A. AUFFRET & A. P. RYLE	239–246
The specificity of some pig and human pepsins towards synthetic peptide substrates	A. P. RYLE & C. A. AUFFRET	247–249

Intermolecular Organization

Binding of ethidium bromide and quinacrine hydrochloride to nucleic acids and reconstituted nucleohistones	A. V. CHITRE & K. S. KORGAONKAR	213–219

RAPID PAPER

Proteins

The isolation, characterization and partial sequence of a peptide rich in glutamic acid and aspartic acid (HGA-2 peptide) from calf thymus non-histone chromosomal protein HMG 2. Comparison with a similar peptide (HGA-1 peptide) from calf thymus non-histone chromosomal protein HMG 1	J. M. WALKER, K. GOODERHAM & E. W. JOHNS	253–255

FULL PAPERS

Proteins

Use of photosensitive hydrophobic probes to label the membrane of the human erythrocyte	E. WELLS & J. B. C. FINDLAY	257–264
Labelling of the intramembranous region of the major sialoglycoprotein of human erythrocytes with a photosensitive hydrophobic probe	E. WELLS & J. B. C. FINDLAY	265–272
Solubilization of human erythrocyte membrane glycoproteins by Triton X-100	R. S. PRATT & G. M. W. COOK	299–303
The relationship of detergent-solubilized plasma-membrane components of rabbit alveolar macrophages to an isolated inhibitor of phagocytosis	R. S. PRATT & G. M. W. COOK	305–314
Localization and verification by synthesis of five antigenic sites of bovine serum albumin	M. Z. ATASSI, S. SAKATA & A. L. KAZIM	327–331
Complete amino acid sequences of the three collagen-like regions present in subcomponent C1q of the first component of human complement	K. B. M. REID	367–371
The amino acid sequence of ferredoxin from *Triticum aestivum* (wheat)	I. TAKRURI & D. BOULTER	373–378
Proteins of the kidney microvillar membrane. The amphipathic form of dipeptidyl peptidase IV	R. D. C. MACNAIR & A. J. KENNY	379–395
Proteins of the kidney microvillar membrane. Immunoelectrophoretic analysis of the membrane hydrolases: identification and resolution of the detergent- and proteinase-solubilized forms	A. G. BOOTH, L. M. L. HUBBARD & A. J. KENNY	397–405
The structure and amount of actin in IMR-90 fibroblasts	P. J. ANDERSON	425–430

Nucleic Acids

The variation with age of the structure of chromatin in three cell types from rat liver	V. ZONGZA & A. P. MATHIAS	291–298
Structural defects in rat liver deoxyribonucleic acid. Endogenous single-stranded regions in comparison with damage induced *in vivo* by a carcinogen	B. W. STEWART, P. H. T. HUANG & M. J. BRIAN	341–352
The reactions of the *Eco*RI and other restriction endonucleases	S. E. HALFORD, N. P. JOHNSON & J. GRINSTED	353–365

Lipids

Quantitative studies of the interaction of cholecalciferol (vitamin D_3) and its metabolites with different genetic variants of the serum binding protein for these sterols	M. KAWAKAMI, M. IMAWARI & D. S. GOODMAN	413–423

Small Molecules

Thiamin biosynthesis in *Saccharomyces cerevisiae*. Origin of carbon-2 of the thiazole moiety	R. L. WHITE & I. D. SPENSER	315–325

Enzymology

Studies on horseradish peroxidase in dimethyl sulphoxide/water mixtures. The activation of hydrogen peroxide and the binding of fluoride — P. A. ADAMS, D. A. BALDWIN, G. S. COLLIER & J. M. PRATT — 273–280

Studies on haemin in dimethyl sulphoxide/water mixtures — G. S. COLLIER, J. M. PRATT, C. R. DE WET & C. F. TSHABALALA — 281–289

Intracellular serine proteinase of *Bacillus subtilis* strain Marburg 168. Comparison with the homologous enzyme from *Bacillus subtilis* strain A-50 — A. Y. STRONGIN, D. I. GORODETSKY, I. A. KUZNETSOVA, V. V. YANONIS, Z. T. ABRAMOV, L. P. BELYANOVA, L. A. BARATOVA & V. M. STEPANOV — 333–339

Adenosine triphosphate consumption by bacterial arginyl-transfer ribonucleic acid synthetases — J.-M. GODEAU & J. CHARLIER — 407–412

The partial purification of sodium-plus-potassium ion-dependent adenosine triphosphatase from the gills of *Anguilla anguilla* and its inhibition by orthovanadate — M. V. BELL & J. R. SARGENT — 431–438

RAPID PAPERS

Enzymology

Immobilized-enzyme pipette. Scope and limitations of a simple device — P. V. SUNDARAM — 445–447

Intermolecular Organization

Are polyphosphoinositides associated with glycophorin in human erythrocyte membranes? — S. D. SHUKLA, R. COLEMAN, J. B. FINEAN & R. H. MICHELL — 441–444

Contents of Volume 179, No. 3

FULL PAPERS

Proteins

$C\bar{1}$ Inhibitor-dependent dissociation of human complement component $C\bar{1}$ bound to immune complexes — R. B. SIM, G. J. ARLAUD & M. G. COLOMB — 449–457

Characterization of domains obtained from a mollusc haemocyanin by limited proteolytic digestion — W. J. GULLICK, D. G. HERRIES & E. J. WOOD — 593–602

Amino acid sequence of the *N*-terminal non-collagenous segment of dermatosparactic sheep procollagen type I — H. ROHDE, E. WACHTER, W. J. RICHTER, P. BRUCKNER, O. HELLE & R. TIMPL — 631–642

Structure of antigenic determinants in the *N*-terminal region of dermatosparactic sheep procollagen type I — H. ROHDE & R. TIMPL — 643–647

Demonstration of cross-reacting material in Tay–Sachs disease — S. K. SRIVASTAVA, N. H. ANSARI, L. A. HAWKINS & J. E. WIKTOROWICZ — 657–664

The reaction of menadione with haemoglobin. Mechanism and effect of superoxide dismutase — C. C. WINTERBOURN, J. K. FRENCH & R. F. C. CLARIDGE — 665–673

Nucleic Acids

Analysis of the ratio of α- to β-globin and globin messenger ribonucleic acid content of fractionated rabbit erythroid bone-marrow cells — V. A. MEZL, E. S. KAWASAKI & J. A. HUNT — 525–535

Lipids

Factors affecting the activity and stability of the palmitoyl-coenzyme A hydrolase of rat brain	T. E. KNAUER	515–523
Enzymes of *myo*-inositol and inositol lipid metabolism in rats with streptozotocin-induced diabetes	P. H. WHITING, K. P. PALMANO & J. N. HAWTHORNE	549–553
Self-association of unconjugated bilirubin-IXα in aqueous solution at pH 10.0 and physical-chemical interactions with bile salt monomers and micelles	M. C. CAREY & A. P. KORETSKY	675–689

Carbohydrates

The isolation and properties of a second glycoprotein (LGP-II) from the articular lubricating fraction from bovine synovial fluid	D. A. SWANN & G. MINTZ	465–471
Proteoglycans of the invertebral disc. Homology of structure with laryngeal proteoglycans	R. L. STEVENS, R. J. F. EWINS, P. A. REVELL & H. MUIR	561–572
Proteoglycans of the intervertebral disc. Absence of degradation during the isolation of proteoglycans from the intervertebral disc	R. L. STEVENS, P. G. DONDI & H. MUIR	573–578

Small Molecules

The formation and distribution of bilirubin monoglucuronide and diglucuronide in rat liver slices	M. T. CAMPBELL & G. J. DUTTON	473–477
Conjugated and unconjugated bilirubins in human and rhesus monkeys. Structural identity of bilirubins from biles and meconiums of newborn humans and rhesus monkeys	S. G. BLUMENTHAL, D. B. TAGGART, R. D. RASMUSSEN, R. M. IKEDA, B. H. RUEBNER, D. E. BERGSTROM & F. W. HANSON	537–547

Enzymology

Identification of histidine residues that act as zinc ligands in β-lactamase II by differential tritium exchange	G. S. BALDWIN, S. G. WALEY & E. P. ABRAHAM	459–463
Purification of alcohol dehydrogenase from *Drosophila* by general-ligand affinity chromatography	A. J. LEIGH BROWN & C.-Y. LEE	479–482
Strain differences in rat liver UDP-glucuronyltransferase activity towards androsterone	M. MATSUI , F. NAGAI & S. AOYAGI	483–487
Kinetics of enzymic reductive deiodination of iodothyronines. Effect of pH	T. J. VISSER, D. FEKKES, R. DOCTER & G. HENNEMANN	489–495
The atypical velocity response by pyruvate carboxylase to increasing concentrations of acetyl-coenzyme A	S. B. EASTERBROOK-SMITH, A. J. CAMPBELL, D. B. KEECH & J. C. WALLACE	497–502
The β-glucosidase from *Botryodiplodia theobromae*. Mechanism of enzyme-catalysed reactions	G. M. UMEZURIKE	503–507
Unfolding and refolding of phospholipase C from *Bacillus cereus* in solutions of guanidinium chloride	C. LITTLE & S. JOHANSEN	509–514
Properties of salt-resistant lipase and lipoprotein lipase purified from human post-heparin plasma	A.-M. ÖSTLUND-LINDQVIST	555–559
The kinetics of rat liver and heart mitochondrial β-hydroxybutyrate dehydrogenase	G. A. TUCKER & A. P. DAWSON	579–581
The multiple forms of α-D-mannosidase in human plasma	S. HIRANI & B. WINCHESTER	583–592
Purification and characterization of a phospholipase A_2 from the venom of the coral snake, *Micrurus fulvius microgalbineus* (Brown and Smith)	L. D. POSSANI, A. C. ALAGÓN, P. L. FLETCHER, JR., M. J. VARELA & J. Z. JULIÁ	603–606

DOES NOT CIRCULATE

Enzyme–substrate and enzyme–inhibitor complexes of triose phosphate isomerase studied by ^{31}P nuclear magnetic resonance	I. D. CAMPBELL, R. B. JONES, P. A. KIENER & S. G. WALEY	607–62
Spectrophotometric studies on the interaction between triose phosphate isomerase and inhibitors	R. B. JONES & S. G. WALEY	623–63
Evidence for an oleoyl phosphatidylcholine desaturase in microsomal preparations from cotyledons of safflower (*Carthamus tinctorius*) seed	C. R. SLACK, P. G. ROUGHAN & J. BROWSE	649–65

RAPID PAPERS

Proteins

Phosphorylation of threonine and serine residues of native and partially dephosphorylated caseins by a rat liver cyclic AMP-insensitive protein kinase	A. D. DEANA, F. MEGGIO & L. A. PINNA	693–69
Interactions of rat α-foetoprotein with bilirubin	V. VERSÉE & A. O. BAREL	705–70

Lipids

Co-ordinate regulation of ethanolamine kinase and phosphoethanolamine cytidylyltransferase in the biosynthesis of phosphatidylethanolamine in rat liver. Evidence from essential-fatty acid-deficient animals	J. P. INFANTE & J. E. KINSELLA	723–72

Small Molecules

Effect of fixation time on measurement of 2′-deoxyribonucleoside 5′-triphosphate pools in the rat embryo	E. J. RITTER, W. J. SCOTT & L. M. BRUCE	715–71

Enzymology

The determination of binding parameters when the total and free substrate concentrations are not approximately equal	N. GAINS	697–70
A thiol-labelling reagent and reactivity probe containing electrophilic mercury and a chromophoric leaving group	B. S. BAINES & K. BROCKLEHURST	701–70
The separation of sheep liver cytoplasmic and mitochondrial aldehyde dehydrogenases by isoelectric focusing, and observations on the purity of preparations of the cytoplasmic enzyme, and their sensitivity towards inhibition by disulfiram	F. M. DICKINSON & S. BERRIEMAN	709–71
The cell-wall phosphatase of cotton (*Gossypium*) is inhibited by kelthane	L. S. DALEY, P. CARROLL & H. MUSSELL	719–72

General Methods

Preparation of [^{32}P]phosphatidylcholine and [^{32}P]lysophosphatidylcholine by using soya beans	F.-H. HUBMANN	713–71

INDEXES
